Roadmap

What is SpaceFi?

SPACEFI is a revolutionized multi-chain token built to power the next generation of social media crypto activities with the adoption of web3 utilities to accelerate the acceptance of crypto globally.

SpaceFi is the official token for space-fi app, spaceSpaceFi's first product and metaspaces (nft gaming) its second product.

DIGITIZING REAL-WORLD ASSETS

Play to Earn Game

SpaceFi's second product is a nft game called metaspac. Metaspac is a play to earn sword, shooting game. The concept is simple participants fight in space with swords, guns, and a guide dog called The inu. Multiple maps, different monsters, unique storyline all this will be the features of the metaspac. Metaspac is a revolutionized 3d high-end graphics, nft, play to earn game gaming game. There is a quest for metaspac players to successfully fight against themselves, and other enemies without getting killed. Metaspac soldiers have 5 inu models In the game starl, soldier, king, frost, and viking.

Each model of your choice can only be purchased with SpaceFi tokens. When you buy your inu at the collectibles menu. Spray bullets, fight with swords, and axe in space, and continue to progress.

The more you fight your level increases. Breed your Inu's to pave way to earn in multiple diverse ways. You earn more SpaceFi as your reward just as you level up. Top players will be rewarded daily, and monthly with amazing boxes which can be claimed some of these boxes will include nfts, and other amazing gifts.

The game will be created to give our holders extra cash and premium entertainment.

Competition: The competition for metaspac are free fire, pubg, codm. Our response to surpassing them are quite simple. We intend to give players a wide range of enemies to fight. They shouldn't be limited to one enemy space interface, and new types of species. Players will be able to experience something different, and new with metaspac, and see the potential. The rewards received in metaspac will be paid in SpaceFi, and all in-app purchases will be done with SpaceFi token.

Spacefi

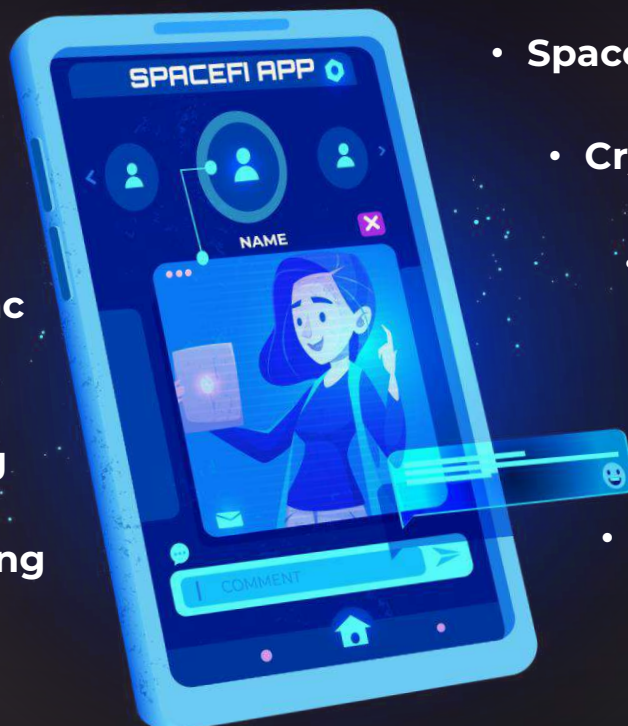

SPACEFI is a modern social media crypto app built for all things crypto from community building to crypto airdrops to the launch pads. It serves as a platform for messaging, community groups, crypto news updates, NFT marketplace, and web3 freelancing. It powered by SpaceFi token. SpaceFi's NFT market place will be multi-chain. Individuals will be able to purchase nfts without limitations. People will be able to play mini games, casino, and play raffles while being able to connect with their friends, and get information on the latest happenings in the world, and crypto. SpaceFi intends to use profits made from SpaceFi app for Marketing, developments, Yield farming , Staking and being a Official sponsor for Football clubs. Space-Fi features an official wallet for SpaceFi tokens.

Abstract

SpaceFi is non-stop riding rocket of success and development that is much more different than your average token.

The decision to make SpaceFi was born from the necessity to integrate the use of crypto in the daily lives of an average social media user and foster the growth of crypto globally. Our main goal was to make a token with actual use that could change the crypto market. Our investors mean everything to us. That is why we have created many reward mechanisms like staking, yield farming, play to earn etc. That means those that believe in this project are actually rewarded for their trust; when investors stake SpaceFi it's starts distributing automatically to their Wallet, following a distribution scheme calculated on the size of the amount staked that automatically distributes the tokens in a fair way to all stakers.

SpaceFi IS SAFE

SpaceFi intends to have audits with reputable Audit and kyc firms such as Solidity etc.

ETH Tokenomics

SpaceFi is a multichain token that first launched on Ethereum on June 1st 2022 and will launch on BSC on 1st July 2022.

SpaceFi intends to use profits made from Space-Fi app for Marketing, developments, Yield farming , Staking and being a sponsor for Football clubs.

THE BASIC

Roadmap

PHASE

LAUNCH

- Website launch
- Strong marketing campaign
- Partnerships and IEOs
- Solidity Audit
- List on Coinmarketcap, and Coingecko
- Spacefi launch
- Reach 5000 holders
- Token Launch on Ethereum and BSC

PHASE

BLAST

- Targeted marketcap of at least 10 million
- Play to earn game tesnet
- Ambassador and influencer push
- Dapps Launch, and NFT Integration

PHASE

LAUNCH

- Targeted marketcap of at least 120 million
- Hackathon with prizes
- Grant announcements
- Launch of SpaceFi exchange and swap.
- Core partnerships with chain-link, Mana, Sandbox and Coti for our metaverse plans.

PHASE

SPACE

- Targeted marketcap of at least 50 million.
- Initial listings on exchanges: (kucoin, gate.io, whitebit, bybit, okex)
- Space Check launch (audit company)
- Ama with core team of cex exchanges

PHASE

MOON

- Targeted marketcap of 500 million
- SPXI auction
- SpaceFi festival
